

Safe Places Certification is a safeguarding tool that our organization has implemented to improve quality programming while reducing the potential risks to children and youth.

We require all Coaches to become Safe Places – **YOUTH CERTIFIED** and all other individuals within the organization – including staff, officials, and board members to be **COMMUNITY CERTIFIED**.

All certified individuals appear in the online Safe Places [Public Directory](#)

**Please note:** If you are applying for YOUTH CERTIFICATION - you must obtain a letter from our organization to ensure RCMP will provide you with a vulnerable sector check.

Safe Places certification options are outlined below, for more information and steps to obtain your certification visit their [website](#)
